## **Luphenil**

Intensive skin care and skin regeneration

### **Ingredients:**

Petrolatum, Aqua, Paraffinum Liquidum, Urea, Aluminium Chlorohydrate, Zinc Stearate, Cera Alba, Panthenol, Cetyl Alcohol, Allantoin, Bisabolol, Pantolactone

### **Properties and Range of Application**

#### **Luphenil**

- Water-in-oil base supports the skin's own protective functions and promotes the natural regeneration ability of the skin.
- For the care of dry and very damaged skin.
- Stimulates the regeneration of the skin even in case of allergies, eczema and other inflammatory skin diseases.
- Normalizes the sebum production of the skin which has been eliminated by frequent washes and the handling of skin damaging substances.
- Restores the balance of the very important natural water-lipid protective layer of the skin thus stimulating the natural skin's own defence function.
- Soothing effect on stressed skin.
- Do not use immediately before putting on protective gloves.
- Particularly suitable for daily use
  - on hospital wards and at the doctor's practice
  - in old peoples and nursing homes
  - in cleaning services.

### **Mode of Application**

Use **Luphenil** as follows before long breaks (at least 15 minutes) and at the end of work: Clean the hands/skin with a mild washing lotion (for example with **Majola-Waschpflege**), then spread a thin layer of **Luphenil** regularly on the skin and rub it in as follows: First apply **Luphenil** on the back of the dry hands and especially on the areas between the fingers. Use several times a day if the skin is very damaged.

### **Standard Packaging:**

20 x 50 ml tube

### **Article No:**

3301
