## Wasa® 2000

Lotion for washes and baths well tolerated by the skin

### Composition

**Ingredients:** Aqua, Sodium Laureth Sulfate, Disodium Cocoamphodiacetate, Alkohol Denat., Sodium Lauryl Sulfate, Sodium Chloride, PEG-200 Glyceryl Hydrogenated Palmitate, PEG-7 Glyceryl Cocoate, Dibutyl Adipate, Parfum, Citric Acid, Urea, Farnesol, Sorbic Acid, Glycol Distearate, Stearamide MEA, Cocamide DEA, CI 42090

### Properties

- **Wasa® 2000** washing lotion cleans the skin thoroughly and gently, even by severe soiling
- Very well tolerated by the skin, even by use of alcoholic hand disinfectants
- Also well tolerated by sensitive skin thanks to carefully selected raw ingredients
- Maintains the skin's natural protective layer
- Supports and regenerates the biological barrier function of the skin
- Formation of a mild foam; pleasant fragrance
- Leaves no lime marks in the bath tub
- Recommended for regular use
- Biodegradable

### Range of application

- For facial and body washing, baths or partial baths
- For general body cleansing
- Child and baby care
- Nursing of the sick
- For people who are sensitive towards alkaline soaps
- Washing of hair and scalp, also suitable in case of sensitive skin

### Mode of application / Dosage

Cleaning of hands: Wet the hands, wash with Wasa® 2000, rinse well and dry.

Skin cleaning: For baths, foam baths and body Wash use as much **Wasa® 2000** as needed.

Note: Shake before use if the product had not been used for a longer time.
